### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 50, 51, 54 & 55 are rejected under 35 U.S.C. 102(b) as being anticipated by USP 5,760,394 to Welle (herein referred to as “Welle”).

Welle teaches a method of identifying and authenticating products wherein a first taggant and a second isotopic taggant are used in combination. See col. 2, lines 31-67. By this method a batch of products can be distinguished and identified.

### ***Response to Arguments***

2. Applicant's arguments, see remarks regarding rejection of claims under 35 USC 102(e), filed 2/28/2005, with respect to the Hunt reference have been fully considered and are persuasive. The rejection of the claims has been withdrawn.

3. Applicant's arguments filed 2/28/2005 have been fully considered but they are not persuasive. Applicant has argued that Welle does not address or describe in any way the possibility of sample contamination that could occur by combining multiple samples with different taggants. However, in response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., multiple samples with different taggants) are not recited in the rejected claim(s). Although

Art Unit: 1743

the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

Applicant additionally argues that Welle “does not provide information by which the observer can authenticate the correctness of the identification.” However, although Welle may not authenticate in exactly the same manner as the spirit of the instantly claimed invention, it is sufficient to meet the limitations present in the claims.

### ***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
